

Culture Change Leadership Skills

A new offering from Culture Change Consultants, Inc.
The Leaders in Transforming Culture for a Safer Workplace.

Workshop Objectives:

- ❑ Understand 5 fundamental principles and 4 tools of safety culture change.
- ❑ Understand the key role of supervisors and managers in shaping work area culture
- ❑ Acquire 3 communication skills found in top tier safety culture leaders.
- ❑ Complete the Safety Culture Leadership Inventory™ self-assessment instrument
- ❑ Develop a personal commitment to improve an area identified in the self-assessment.

Leaders as Shapers of Culture

Creating and maintaining an injury-free workplace requires new assumptions about managing and supervising. Supervisors and Managers need to understand how to lead the safety culture in their immediate work area. This involves a shift from the old role as commander, controller and disciplinarian to culture shaper, requiring new skills and a personal commitment to change.

Who Should Attend?

Managers, Supervisors, Team Leaders
