

# Implementing Culture Change through Grassroots Safety Leadership

## *A Virtual Course*

Adapted from our three-day course, this virtual course brings to your organization the necessary tools for employees to become involved in the Grassroots Safety process.

Developed by the originator of the Grassroots Safety Leadership™ methodology, this course covers the entire process of creating cultural change through employee engagement.

### Participants Will:

- Understand the four phases of safety culture change and how you can make a difference at any level of the organization
- Acquire a profound understanding of how culture and organizational systems affect safety performance
- Learn concrete, practical techniques to get and sustain grassroots involvement, ownership and leadership in safety
- Receive the Culture Change Toolkit® that includes 10 tools which can be immediately applied back into your workplace

**SEPTEMBER 22-24, 2020**

\$2,495 per person

### A Customized Virtual Course

- Series of modules presented by Dr. Steven I. Simon and the CCC consulting team
- Virtual small group breakout sessions
- Workshop materials will be provided prior to event
